

CodeChef VIIT Pune Chapter

CodeChef College Chapters are the programming clubs run and maintained by the official Chapter Leaders and mentored by CodeChef. They aim to make learning competitive programming accessible for students across the globe.

The mission of CodeChef College Chapters is to build a robust Competitive Programming culture in educational institutions. College Chapters help students become better problem solvers by fostering learning and professional development. We believe every student should be given the proper mentorship and resources to become a better programmer and compete on a global scale.
