Student Empowerment Cell and GeeksforGeeks Chapter VIIT Work together for empowering student to become a good IT or Non IT Professional.

STUDENT EMPOWERMENT CELL

Empower today. Flourish tomorrow!

SEC is amongst those cells in VIIT which has come up with different perspectives to work on technical and non-technical aspects in a definite ratio by means of which every student can work on them and get the best out of it. Our mission is working towards communication and presentation skills for overall Personality Development, working on strengths and weaknesses, providing utmost support to anyone who is in emotional crisis and most importantly helping each other to tackle our fear and grow together

GeeksforGeeks Chapter VIIT

There is a famous saying by Marissa Mayer. 'Geeks are people who love something so much that all the details matter'. Many have tried to define who these geeks are, but this one is right on spot! For a geek, it is all about a group of geeks working on the same problem trying to figure out some answer. Flow many times where you frustrated while looking out for a good collection of programming/algorithm/interview questions? What did you expect and what did you get? This is where GeeksforGeeks comes into picture. The scholars of VIM, have made a platform for students who are passionate for coding and very active in programming competitions, clubs and activities around the campus. Being one of the largest placement preparation portal for software job aspirants. GeeksforGeeks. NIT is now planning to develop young minds, boost the knowledge and explore around campuses. OFC, arranges various workshop, practice Is, seminars, competition, events in order to create a friendly and competitive environment. The club is on of the most active and successful club on and off

campus. GM VIIT focuses on the development of every geek who wants to pursue lofty peaks in life and mentors them for coding and IT knowledge. As the saying goes. 'Practice makes a man perfect, for programmers there is no truer set of words. GeeksforGeeks .VIIT realizes the important of programming practice in climbing the stairs of success in the field of Computer Science and technology.

CODE ! COMPETE ! COLLABORATE ! i what GFG aims and follows!!
